

Score Benches & Indicators

Score benches are integral part of every game. Our score benches are designed and manufactured with safety and practicality in mind.

Available size for 2,3,4,5 & 6 persons, our benches include quality lock-able castor wheels.

Now with optional 'Bench Indicator Modules' which include the following (for each team):

- Time-out Request Arrows
- Substitution Request Indicators
- Team Fouls indicators showing when maximum allowable team fouls is exceeded
- Possession Arrows

Each of these indicators are controlled via the CC-10 Control Console, not manual switches. This allows the console operator to display the indicators when required quickly and easily.

The indicator modules are mounted into the face of the score bench with a matt cover. Constructed of a strong steel frame with MDF coverings and a white melamine top, our benches are able to withstand the rigours that indoor sporting equipment receives

Benches are usually manufactured in "Light Grey" unless a colour is specified.
